OBJECTIVE

MERN Stack Developer with hands-on experience building full-stack web apps using React, Node.js, Express, and MongoDB. Skilled in JWT auth, Redux, and responsive UI design. Eager to contribute scalable, clean solutions in a dynamic development team.

PROJECTS

FoodieFiesta 🔗

MERN Stack | Redux | JWT | Vercel | Stripe

- Developed a secure food delivery app with JWT-based authentication and protected routes.
- Implemented Redux for efficient cart state management with real-time updates.
- Designed and deployed a robust admin panel featuring full CRUD operations on products, users, and orders.
- Conducted extensive API testing with Postman to ensure seamless frontend-backend integration.

IlmHub – Online Exam Platform 🔗

MERN Stack | JWT | Vercel

- Built a role-based exam platform with JWT authentication controlling access for students and administrators.
- Designed and developed the complete admin panel with all necessary functionalities for exam and user management.
- Engineered modules for exam creation, question banks, timed exams, and automated results.
- Followed MVC architecture with Mongoose ODM for database schema and validation.

PrimePick-eCommerce Platform 🔗

React.js | Tailwind CSS | Context API | Figma | Vercel

- Built a modern, responsive eCommerce platform with category filters, real-time cart, and secure checkout.
- Integrated UX features like hero banners, best-sellers, and newsletter subscription to boost engagement.
- Used Context API for centralized state management and TailwindCSS for consistent styling.

Organic Store – E-Commerce Website 🔗

React.js | Vercel

- Created a clean and mobile-friendly e-commerce site with wishlist, shopping cart, and local storage persistence.
- Added product filtering, sorting, and customer reviews for a smoother user experience.
- Focused on clean UI/UX using responsive design principles.

EDUCATION

Bachelor of Science in Software Engineering (BSSE)

COMSATS University Islamabad, Lahore Campus

09/2022 – 09/2026

Lahore, Pakistan

Relevant Coursework:

Web Technologies with MERN Stack

Database Management Systems (DBMS) with SQL

Data Structures & Algorithms (DSA)

Object-Oriented Programming (OOP) with Java

SKILLS

Front-end Technologies:

React.js | HTML | CSS | Tailwind CSS | Bootstrap | Redux | JavaScript

Back-end Technologies:

Node.js | Express | MongoDB | RESTful APIs | JWT Authentication

Tools & Others:

Git | GitHub | Postman | Vercel | Stripe
